CANADIAN ONLINE JOB POSTING DASHBOARD

The **Canadian Online Job Posting Dashboard** is a search tool hosting data scraped from online job postings in Canada. For a given geography and time period, users can search by **job title** or by **work requirement**.

ONLINE JOB POSTINGS PROCESSED

2.3M /YEAR
190K /MONTH

COVERING

13 provinces & territories

Over 75 detailed sub-provincial regions

Approximately **90%** of job postings captured by Vicinity Jobs are matched to a specific geographic location within a province or territory.

Job postings organized by occupations at 4 levels of detail:

- **NOC1** Broad (e.g., Health occupations)
- **NOC2** Major Group (e.g., Technical occupations in health)
- **NOC3** Minor Group (e.g., Technical occupations in dental health care)
- **NOC4** Unit Group (e.g., Denturists)

NOC stands for National Occupation Classification. NOCs are used to group occupations based on the type of work performed (e.g., tasks, duties). The data in the dashboard matches job postings to their detailed NOC codes.
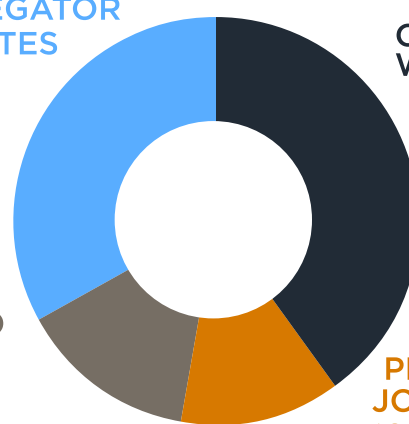

Data sources:

- **33%** JOB AGGREGATOR WEBSITES
- **40%** CORPORATE WEBSITES
- **14%** JOB BANK
- **13%** PROVINCIAL JOB BOARDS (OR SIMILAR)

Available in **ENGLISH & FRENCH** & updated **MONTHLY**
